

O·FARM 榮獲香港有機資源中心 2025 年度農場傑出管理獎

O·PARK1 在可持續農業及社區參與的貢獻獲肯定

O·PARK1 的有機天台農莊 O·FARM 榮獲由香港有機資源中心（HKORC）頒發的 2025 年農場傑出管理獎。O·PARK1 團隊代表於 2026 年 3 月 8 日出席頒獎禮，並榮幸地接受是項殊榮。

轉廚餘為收成

O·FARM 種植了不同的時令農作物，充分展現了利用 O·PARK1 處理廚餘所生產的有機堆肥（O·堆肥）的成效。這演示充分展現了有機廢物如何不再被送往堆填區，而是可以轉化為滋養土壤、支持農耕的寶貴資源。

此舉不僅突顯了有機廢物處理的環境效益，更以切實而富意義的方式，將廢物管理與農業可持續發展緊密連接。

回饋社區

O·FARM 除作為農業示範角色外，亦致力於社區參與。農莊收穫的農作物會分發予不同的非政府組織和慈善機構，讓大眾可以親身接觸可持續農業及環保責任的理念。

O·FARM 不僅培植農作物回饋社會，更透過導賞團參觀，讓公眾了解廚餘管理如何實踐可持續的綠色生活。

從肯定到動力

獲得 HKORC 頒發此獎項，對 O·PARK1 是一個重要里程碑，肯定了其在農場管理方面追求卓越的投入，以及建設更可持續香港的願景。

O·PARK1 與 O·FARM 將繼續秉持推廣有機廢物回收及可持續農業的使命，繼續成為香港以至更廣地區的環保模範。

O·FARM Wins Farm Management Excellence Award 2025 by Hong Kong Organic Resource Centre

O·PARK1's Contribution to Sustainable Agriculture and Community Engagement was Recognised

O·FARM, the organic rooftop farm at O·PARK1, has been honoured with the prestigious Farm Management Excellence Award 2025, presented by the Hong Kong Organic Resource Centre (HKORC). A representative from O·PARK1 attended the award ceremony on 8th March 2026 to proudly receive the recognition on behalf of the team.

Turning Food Waste into Harvest

O·FARM cultivates a diverse range of seasonal crops which showcases the effective use of organic compost (O·Compost) produced at O·PARK1 — derived from the treatment of food waste. This demonstration serves as a powerful testament to how organic waste, rather than ending up in landfills, can be transformed into a valuable resource that nurtures the soil and supports cultivation.

The initiative not only underscores the environmental benefits of organic waste treatment but also bridges the gap between waste management and agricultural sustainability in a tangible and meaningful way.

Giving Back to the Community

Beyond its role as an agricultural showcase, O·FARM is deeply committed to community engagement. The crops harvested at the farm are distributed to various NOGs and charities, allowing the communities to connect with the concepts of sustainable farming and environmental responsibility.

Through guided tours, O·FARM has cultivated not only crops to share with the communities but also a growing awareness of how food waste management contributes to sustainable green living.

From Recognition to Driving Force

Receiving the Award from HKORC is a significant milestone for O·PARK1, affirming its dedication to excellence in farm management and its broader vision of building a more sustainable Hong Kong.

O·PARK1 and O·FARM remain committed to their mission of promoting organic waste recycling and sustainable agriculture, continuing to serve as a model of environmental protection for Hong Kong and beyond.
